The Geopathic influence in the garden is High

Water tests showed a high degree of field influence

The combination of the Garden geopathic and the water is excessively high. This will tend to lead to people living in the house to be under magnetic field stress. The symptoms of this will be slower the usual recovery from sickness as well as the body not being able to reach the peak performance. In short the rest (recovery) state is not very restful at all.

Within the house the average negative influence is between 40% and 60% below ideal.

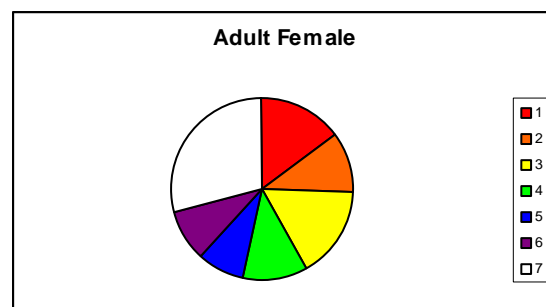

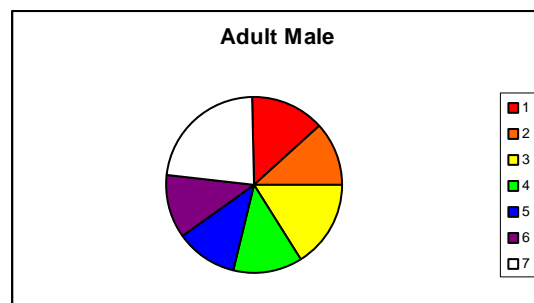

The geopathic is contributing approximately 46%

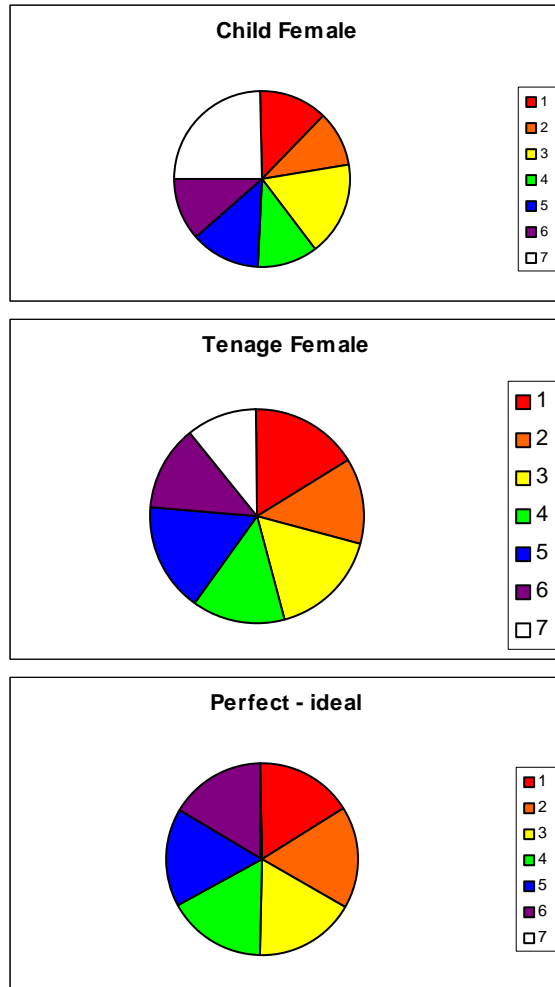

Water is contributing 33% to 45%

The electrical system has a contribution of 35% to 45%

The stress on the people is shown in the following graphs.
